and so on

Core values for CWM-Uganda

Team Work and Social Engagement

A society of people must be a social society not an egoistic

Working together with others is better than working alone

Learning & sharing success with others gives us more satisfaction

Helping others makes us happy

From working with others we can learn a lot

Self commitment

and so on

Core values for CWM-Uganda

Social economic Sustainability means

Economic improvement must be a collective not an individual process

It must integrate or benefit all people of the society

We have to develop alternative economic systems (like **cooperatives**) instead of capitalism

We have to respect the human dignity and the nature for **sustainability**

and so on

Core values for CWM-Uganda

CWM Spirit

University from the ground means

CWM Spirit comes not only from one value but from all the above four values

CWM Spirit means learning from each other every single day

University from the ground means

Learning through practice and doing it. Work together with the more qualified colleagues and learn from them. If you analyse your work and mistakes you will find out better strategies and improve your knowledge!
